Reflectors for Russia

By The Associated Press
NEW YORK, N. Y., April 17.—The voluntary action of the city's employers, has initiated a campaign of unemployment insurance which should spread throughout the country. The city's unemployment work, and especially by the city's institutions, the city of Rochester, admirably under Dean Weld is the most important. And the most important feature of the university is the city's library, admirably planned and built to contain 1,000,000 books and room for 100,000 more. The library should be studied by the city's students, chief of the city of Rochester, has given \$150,000 to the university, and Mr. Eastman has given five millions to the city's medical school.

NEW REPUBLIC FACES THREAT OF SECESSION

Airplane Takes Spanish Ministers to Barcelona for Peace Negotiations.

ARE READY FOR ACTION

Indicate Armed Force Will Be Used to Maintain Rule, If Necessary.

By The Associated Press
MADRID, April 17.—Three ministers of the new republican government today left by airplane for Barcelona to carry on negotiations with Colonel Francisco Macia, president of the new Catalan Republic, to prevent the secession of Catalonia from Spain proper.

Determined to prevent dismemberment of Spain, the provisional government of President Niceto Alcalá Zamora today took steps to bring Catalonia, where an independent Republican government has been set up, back under the Madrid authority. The minister of state, Alejandro Lerroux, after a long cabinet session last night at which the problem was discussed said that apparently there was now no necessity to use armed force, but that the republic would have been prepared to "use violence if necessary to remove this thorn in Spain's side."

President Alcalá told newspapermen: "Great cordiality exists between Colonel Macia and us and everything is working out nicely." The people of Spain appeared today to have turned easily from celebration of establishment of the republic to their usual jobs, and cities today took on their normal aspect save for banners and bunting of the Republican colors, which were to be seen everywhere.

OFFER PRIZES IN GARDEN CONTEST

Seeds To Be Distributed Monday for Project Sponsored by Club.

A sum of \$35 will be given winners in the garden contest for unemployed, sponsored by the Marion County Federation of Women's Clubs, it was announced today. The Marion Star will give \$25 to the man who has the best garden. Mrs. Grover Snyder, conservation chairman of the federation is offering \$5 to the child having the best garden and Mrs. H. K. Mouser, president of the federation, will give second and third awards of \$2 and \$1 in the children's class. The contest will close April 30. To date, 57 families have entered. Mrs. Mouser said state director of agriculture is outlining the requirements of a garden contest, which will govern the rules of the contest. A government chart showing the food needed by a family of five is the guide which will be used in apportioning the seeds to each family. The federation is supplying the seeds. Seeds will be given out at the Family Welfare office on South State street Monday morning. Those given seeds by Mrs. Jane Alexander, welfare investigator, will register on cards. The federation is supplying upon its first plants to include a card in the contest this fall to teach the women how to preserve the vegetables for a winter food supply.

BABSON SEES BETTER TIMES

Noted Economist Tells Hoover Business Has 'Turned the Corner.'

ALSO VOICES WARNING

Predicts Commodity Prices Are Likely to Remain Low for Long While.

By United Press
WASHINGTON, April 17.—A promise and a warning regarding what he termed the new upturn in business activity has been given President Hoover by Roger W. Babson, financial writer. "Business 'has turned the corner,'" he told the President last yesterday during a call at the White House, but added that commodity prices, which in some cases have dropped nearly to pre-war levels, may be expected to continue low for a long while. He ascribed the present stock market decline to the reaction following an exuberant rise due to the adjournment of congress.

He went so far as to venture a prediction of labor shortage before Christmas, although the monthly summary of the department of labor, covering 15 major industrial groups, reported no change in the March situation over February, with approximately 6,000,000 jobless.

Federal Officials' Views
"There is no ground for alarm, but on the other hand there is no basis for exaggerated optimism," said Ethelbert Stewart, commissioner of labor statistics. Secretary Doak, however, continued optimistic, citing an aggregate increase of 10 per cent in factory payrolls.

Babson pointed out that railway freight loadings, an index to which financial experts attach much importance, had at last shown an upward turn. Likewise chain store earnings are increasing, he said. The financial expert believed that prices of wheat, rubber and lead have reached rock-bottom. Regarding oil, another basic commodity, he was not so optimistic. The government's efforts to secure voluntary restriction of production can have only a temporary effect, he thought. "The next era of speculation," Babson predicted, "will be in commodities, not in stocks."

23 OHIO PLACES ARE ORDERED PADLOCKED

Historic Cleveland Hotel Among Those Affected by Ruling of Judge.

By The Associated Press
CLEVELAND, O., April 17.—Twenty-three Cleveland and north-eastern Ohio places today were under padlock orders by Federal Judge Samuel H. West. The Cleveland places included the historic Hannah hotel, where a guest was arrested for selling liquor, and Charles Elzetter's speakeasy, where a holdup led to the murder of Patrolman James Ryan by John W. Glascock, who has been sentenced to the electric chair. The others are: William Bond and George Crats of Memory; Arnold Ross and Francisco Romoli of Warren; Carter's roadhouse; Tom Rame of Hamilton; Thom O'Connor of Hamilton and O'Connor of Struthers. Unless the owners show cause otherwise in the next 30 days, their places will be closed for one year.

COLLEGES SCORED AS 'HEALTH-WRECKERS'

Send "Run-Down" Men and Women into World, Western Reserve Official Charges.

By The Associated Press
CLEVELAND, O., April 17.—Modern college life was charged today with undermining the health of students and sending out run-down men and women to do the pioneering work of the world.

The indictment was made by Dr. Lee H. Ferguson, director of the student health service at Western Reserve university and chairman of the committee on tuberculosis of the national conference on college hygiene.

Dr. Ferguson based his assertion on work at Western Reserve, where students have been given regular physical examinations, and reports from other institutions of higher learning.

He called upon university authorities to take steps to remedy a situation which is undermining student health. Some of the best students, overburdened by increasingly difficult curricula, have had to drop out because of poor health. Facilities for recreation, Dr. Ferguson said, are not what they should be. Students should have thorough physical examinations.

Modern college life is taking a terrific toll among students," he said. "It is affecting particularly the most valuable students, most of whom are living contrary to all rules of health."

"There is very little known why this toll is so great, whether educational authorities have been heaping up curricula until the load has become more than the average student can stand, or whether social life in the college has been over-emphasized until the students reach a breaking point."

Wants Vigorous Products
"Colleges should be sending out pioneers, vigorous types of young men and women to do the pioneering work of the world, rather than types which are run down before they can get started."

"College social life has made an attempt to duplicate night club life of New York. Social affairs are carried over to breakfast time. 'If that sort of thing is unhealthy and unwholesome, colleges, instead of catering to it, should set a standard to correct it.'"

Editorial in Brush-Moore Paper Gets Award in State Contest.

By Brush-Moore Learned Wire
CANTON, O., April 17.—Honor came to Brush-Moore Newspapers, Inc., today when an editorial on Christmas health seals published in one of its member papers, The Canton Repository, was awarded first prize in a statewide editorial contest.

The editorial, appearing on Dec. 1, 1930, was written by D. L. Mansell, member of The Repository editorial department, and contributing editorial writer for other Brush-Moore newspapers, including The Marion Star.

TAX PROGRAM TO BE READY FIRST OF MAY

Legislators Will Have Opportunity to Study Plan Before Next Session.

By The Associated Press
COLUMBUS, O., April 17.—A complete taxation program will be ready for the Ohio legislature May 1 under present plans. The schedule was decided upon by the joint legislative taxation committee after it adjourned yesterday until next week. The committee's recommendations will be used by the legislature in the task of selecting new sources of revenue to make up for decreases on real estate.

If the schedule is carried out, the tax committees of both houses will have an opportunity to scan the program several days in advance of May 1 when the legislature reconvenes to consider the revenue problem and other special measures.

Revision of the tax laws was made necessary by the new classification system which will replace the uniform rule repealed by the voters. During this week's session, the joint committee prepared preliminary drafts of the tax on intangible wealth and personal property and others will be drawn up next week. They include the new automobile tax bill which would abolish the personal property tax on motor vehicles and increase the license fees by assessing them on a weight basis instead of horsepower as at present.

Other definite proposals call for sales and income taxes and it is probable that taxes on tobacco and amusements also will be considered. Reports to the committee showed that a tobacco tax in Ohio would yield about \$5,000,000. This is \$2,000,000 less than earlier estimates.

COBB IN HIDING

Friends Seek Reconciliation Between Former Star and Wife.

By The Associated Press
SAN FRANCISCO, Calif., April 17.—While friends tried to effect a reconciliation between Ty Cobb and his wife, the former baseball star remained in hiding here today. Cobb did not board a train for Los Angeles yesterday, it was reported, but stayed here with George Putnam, executive of the San Francisco baseball club.

It was said by the latter's friends that Cobb would remain here in the hope that mutual friends may persuade Mrs. Cobb to drop her suit instituted at Augusta, Ga., several days ago.

When Cobb left Monterey Wednesday, he had planned to return home immediately.

U. S. FORCES IN NICARAGUA STRENGTHENED

Cruiser Memphis Arrives at Puerto Cabezas and Gunboat Asheville Is Moved.

By The Associated Press
WASHINGTON, April 17.—Reinforcements for the naval forces gathered to protect Americans in insurgent-ten Nicaragua today reached Puerto Cabezas. The cruiser Memphis arrived there early today and within an hour the gunboat Asheville left that port for Cape Gracias a Dios, some 60 miles up the coast.

The Memphis, commanded by Captain G. J. Meyers, carries 39 officers and 437 enlisted men of the navy. No marines are aboard, but an organized landing force is maintained which could go ashore in case of emergency.

The Sacramento, commanded by Commander W. W. Smith, has a complement of 11 officers and 163 enlisted men and no marines.

The Asheville is manned by nine officers and 153 enlisted men and has aboard 35 marines and one marine corps officer.

Stimson Sounds Warning
Secretary Stimson today gave notice to American citizens in Nicaragua that the American government could not undertake general protection of its citizens in that country.

The notification sent through the legation at Managua and consulates at Bluefields recommended that "all Americans who do not feel secure under the protection afforded them by the Nicaraguan government through the Nicaraguan National guard withdraw from the country or at least to the coast towns whence they can be protected or evacuated in case of necessity."

"Those who remain," the official notice said, "do so at their own risk and must not expect American forces to be sent inland to their aid."

U. S. Policy Attacked
As these defense efforts proceeded, Representative Fish, New York Republican, attacked the administration's attitude toward Nicaragua as a "hit-and-run" policy which "disgusted" him.

The New Yorker contended the marines either should be withdrawn immediately or used to protect both American lives and property.

Their criticism followed a statement in high official quarters here that the administration's new policy in Nicaragua was based on a determination to use force when necessary to save American life but to employ armed troops for safeguarding property only in the most exceptional circumstances.

The state department announced that despite insurgent activity and US Marine casualties no change had been made on its plans to have all marines out of Nicaragua by the beginning of 1933. Secretary Stimson officially approved plans calling for withdrawal all combatant marines by next June 3.

Three senators also joined in criticism of the Nicaraguan policy. Senator Swanson, Virginia Democrat, said he was "sure the Hoover administration will protect American property and American citizens."

Senators Brookhart, Republican of Iowa, and King, Democrat of Utah, reiterated their demands that the marines be brought back home.

VICTIM FOUND UNHARMED IN ILLINOIS HOTEL

Abductors of Fred J. Blumer Flee as Capture by Police Looms.

By The Associated Press
MONROE, Wis., April 17.—Fred J. Blumer, 32-year-old president of the Blumer Products Co., near-by manufacturer, who was kidnapped April 9 and held for \$150,000 ransom, was found in a Decatur, Ill., hotel today. He was unharmed, but suffered from nervous exhaustion. His captors had fled.

Blumer will return to Monroe by automobile this afternoon. With him are his brother, Adam, Sheriff Myron West of Green county, and F. B. Lutzinger, president of the First National bank of Monroe, who found him in the Hotel Orlando shortly before 5 a. m. today.

No Ransom Money Paid
Desperate Efforts of Gang To Escape Discovery Are Revealed.

Archibuteo E. Wells, secretary-treasurer of the Blumer company, in announcing the missing man had been found, said no money had been paid for his release. The only expense involved, Wells said, was that incurred in the trip to and from Decatur.

When found, Blumer showed the strain of the nervous tension he had been under for more than a week. He was unharmed, his clothes were badly in need of pressing and he was desperately tired.

Blumer himself sent out the first word that he was alive and unharmed. At 9:20 last night he telephoned Wells from the hotel. Fearing a hoax, Wells and Lutzinger listened in on the conversation. Blumer convinced them of his identity, and his friends hurried to Decatur by automobile.

Blumer was released, Wells said, when the abductors became frightened at the close pursuit of police. Rockford, Ill., authorities and Chicago police, led by Detective Lieutenant William Cusack, conducted the search in and near Rockford, and in the vicinity of Streator, Ill. The abductors kept moving further south. Wells said. Finally last night, when they found themselves but a few hours ahead of the searchers, they released Blumer and fled. Wells expressed the belief they were headed for Canada.

Parallels Other Cases
It was said the kidnapers had telephoned Jacob Blumer, a brother, that Fred would be killed if the ransom was not paid immediately.

Members of the Blumer family admitted last week that demands for \$150,000 ransom had been made and that they had asked the kidnapers to reduce the demand to \$15,000.

Fred Blumer is considered wealthy. His family formerly operated a brewery. His kidnapping was similar to those of a number of other rich men in the Midwest in recent years in that much secrecy has surrounded the attempts to obtain his freedom.

FATHER OF STUDENT SUES OHIO COLLEGE

Seeks Court Test of Miami School's Right to Dismiss Girl.

By The Associated Press
HAMILTON, O., April 17.—William West, of Portsmouth, Ohio, plumbing inspector, filed suit today in common pleas court asking a test of Miami university by enjoining from dismissing his daughter, Miss Joan West, as a student.

Miss West is a student in the Teachers' college. A K. Morris, instructor in the college, said the girl, registered for a two years course, was dropped at the end of last semester because of low grades. At the start of the second semester she registered for a four-year course.

Morris said Miss West again failed to meet required scholarship requirements at the recent mid-semester examination and was asked to leave Miami for the month.

He said the student was not expelled but dropped because of low grades.

West filed suit to test authority of a state institution to drop a student because of poor scholarship.

Judge E. J. Keefe of Butler county requested Chief Justice Marshall to assign another judge to hear the case. Marshall appointed Judge J. B. Barnes of Sidney. The case was scheduled to be heard Monday.

TO START WORK ON ADDITION

Chesterville Board of Education To Increase School Facilities.

Special to The Star. MT. GILEAD, April 17.—Construction of an addition to the Chesterville school will be started Monday by Galtbreath & Leonard of Columbus whose bid of \$30,140 for the general contract was the lowest received.

Contracts were let Wednesday night by the board of education to the Columbus firm and to W. E. Flavin of Mt. Gilead for the plumbing. Flavin's bid was \$2,886. The Columbus Heating & Ventilating Co. of Columbus received the contract for the heating plant installation at its bid of \$4,000.

Ready by Fall. School officials state that the addition will be ready for use when school opens Tuesday, Sept. 7. The school contains an auditorium, gymnasium, several classrooms, and a room equipped for manual training. The architect is T. M. Case of Mansfield.

Dr. T. C. Holy and George Morris of the state department of education have assured the board of education that the state will furnish \$7,000 to cover the difference between the bond issue of \$30,000 and the contract prices which total approximately \$34,000. The remainder of the \$7,000 will be used to purchase equipment including seats for the auditorium and shop equipment for the manual training room.

An increased enrollment is expected next year as the Washington school, the only one room school, remaining in the county will be abandoned and the pupils transported to Chesterville.

Another possible addition to the

enrollment is from the East Salem district where a petition has been circulated asking for transfer to the Chesterville district. It is reported that the petition carries a sufficient per cent of the names of those in the district to assure the transfer. The county board of education is expected to act on the petition Saturday.

Edison and Iberia school officials are now making plans for the erection of new buildings or additions to the present structures as their first grade charters are threatened because of the lack of proper facilities. No definite announcement as to building plans has been made but a bond issue will probably be submitted for approval this fall in the Edison district and possibly at Iberia.

exile which Alfonso, a confident will end in his recall to the throne. To both Victoria and Alfonso, the five of their six children who are here with them, the people of Paris extended a welcome which was more like that of conquering heroes, than refugees.

Alfonso was visibly startled to see the huge crowd awaiting him as he stepped from his train, and attempted to slip out a side door of the railway station to a waiting car, but found another cheering crowd awaiting him there.

At his hotel police had to make a way for him through a throng which stood outside, and finally upon their persistent demands he appeared with Victoria upon a balcony opening on their rooms. Both struggling to master their emotions smiled and bowed and withdrew, but the shouting continued and they had to appear again.

Not until two hours later, when the lights in the royal apartment were turned out, did the crowd disperse.

One of Alfonso's first inquiries upon reaching Paris, it was understood, was for the welfare of his third son, the 17-year-old Infante Don Juan, who was taken to Gibraltar from the naval academy at Cadix shortly after proclamation of the Spanish Republic.

He appeared greatly relieved upon being told that arrangements had been made for Juan to take the Roma today from Gibraltar to Naples, from where he may proceed to Paris.

No decision has been made as to where Alfonso will spend his exile, whether in Paris, a nearby villa, or in England.

Alfonso is wealthy and may go where he wishes.

positive identification of the girls as each gave a different name for the other.

The second gunman, who eluded police, was identified as Clarence Saunders of Kansas City, alias Frank Mitchell and Charles Arthur Floyd. Officials said he was sentenced to 12 to 25 years in Ohio penitentiary under the name of Mitchell recently for the robbery of the Sylvania, O., bank last Dec. 10, but escaped through a train window at Kenton, O., while being taken to prison.

The automobile in which Mitchell escaped was found early today on the Chicago road near Crissey, O.

Identification of Miller as a former Ironton youth was made by Detective Joseph Galloway of Toledo, who told police here he had arrested Miller at Lakeside, Mich., several months ago. Galloway said the two girls were with their last name was Ludwikowski.

Patrolman Will Weaver, Physicians said they believed Policeman Castner would recover from two bullet wounds in the abdomen and one in the hip, Mitchell, killed in the gun battle, is said to have been in Kansas City, Mo., at the time of the shooting.

The four had created suspicion here by spending large sums of money and by Galloway and Castner stopped at their automobile to question them. Miller started shooting, but was fatally wounded after firing only once. His companion sped away in the automobile as the guns blazed. The wounded girl was picked up and the other captured after a short chase.

With an arc light of 150 amperes, this reflector sends into space a beam of light possessing 1,250,000,000 candle power.

RUSSIA does not mean to be taken by surprise. These giant reflectors for coast defense and battleships are intended to "pick up" enemy airplanes for the information of Russian anti-aircraft gunners. With 1,250,000,000 candle power, airplanes could be found at any depth in the sky.

Recently, visiting the General Electric plant at Schenectady, the writer was shown the greatest hydraulic turbine ever built and was told "That's for Russia." To find here a tremendous battery of reflecting mirrors, also for Russia, indicates that Russians are busy, no matter what the unemployment and depression may be elsewhere.

ALMOST as interesting as the great parabolic reflector is a sign posted in the Bausch & Lomb factory reminding the workers that such a day is "teeth-cleaning time." Fifteen dental hygienists from the Rochester dental dispensary will clean your teeth and chart any defects.

That service, which costs workers nothing, is another of George Eastman's ideas. His money established it.

Such tooth service can add years to a worker's life and usefulness, saving him from rheumatism and other crippling diseases that often start from infection at the root of a tooth.

LATIN CLUB MEETS

Gallion High School Group Presents Program in Auditorium.

GALLION, April 17.—The concluding meeting for the present school year of the Latin club of the Senior High school was an event of Thursday night at the senior high auditorium.

The program arranged for the occasion was announced by Miss Martha Goshorn and included a piano solo by Miss Martha Feerer; a talk, "The Gods," by Eugene Smith; a play, "The Gods Descend," presented by a group of junior and senior members, Louise Dawson, Dorothy Nichols, Edna Arndt, Kathryn Cockley, Florence Stevens, Frances Bernard, Helen Murphy, Jerome Gans, Allen Johnston, Joel Brown and Walter Diesem; an organ solo, by Miss Maryon Helmar; a playlet, "Latin Sentence Dramatized," presented by Dorothy Durtche, Clayton Stevenson, Cleola Whittemore, Paul Barton, Althea Ness, Ruby Myers, Joseph Zucker and Mary Margaret Edler; presentation of medal by the club sponsor, Miss Mary Mathe, to Miss Martha Feerer, a senior, who received the highest grades in the junior-senior latin class for the school year; the singing of the high school songs in Latin, conducted by Miss Dorothy Nichols with piano accompaniment by Miss Maryon Helmar, and the playing of a Latin game.

LADIES' AID MEETS

Gallion United Brethren Church Group Holds Session.

GALLION, April 17.—There was a good attendance at yesterday afternoon's meeting of the Ladies' Aid society of the United Brethren church.

Following the devotionals, conducted by Mrs. Harold Sowers, and a brief business session, the program of the afternoon was presented. It included a vocal number by little Miss Dora Ehrhart, a prayer by Mrs. J. H. Patterson, a reading by Miss Betty June Long, a poem by Mrs. Harold Sowers and harmony duets by the Misses Edith and Esther Weber with ukulele accompaniment.

Supper was served at the close of the program by the hostesses, Mrs. James Morton, Mrs. J. D. Winters, Mrs. P. Smith, Mrs. Mary Sayles, Mrs. Audrey Shumaker and Mrs. Verda White.

Silk Mill Closes

To Take Inventory

The Susquehanna Silk Mills which closed its doors this week for inventory purposes will reopen the morning of April 30, according to W. E. Bartholomew, superintendent.

It is the custom of the mills to close at his period of the year. The entire force that was employed by the mills at the time of the closing will return to work with the reopening.

Marion Woman's Father

Dies at New Vienna

Mr. and Mrs. C. B. Rayburn of 244 Superior street will leave today for New Vienna where they were called by the death of Mrs. Rayburn's father, S. Q. Elliott, 81.

Mr. Elliott died last night of infirmities of age. Funeral arrangements have not been made.

Besides his daughter Mrs. Rayburn, he leaves the other daughter, Mrs. Carey Stratton of New Vienna, Mrs. U. S. Moon of Martinsville and Mrs. Bert Garner of Dayton, and a sister, Mrs. Frank Hildebrand of Dayton.

Can Run Business from Golf Links in 20 Years, Speaker Says

By The Associated Press. CLEVELAND, O., April 17.—The day when you can run your business from the golf links and your home contains almost a whole symphony orchestra will come within the next 20 years, believes Major General James G. Harbord, chairman of the board of the Radio Corporation of America.

General Harbord, speaking at the

annual banquet of the National Industrial congress last night, predicted that electricity will bring a revolution in life comparable to the changes wrought by the printing press and the steam engine. Electricity, through the radio, television, photo and facsimile transmission, sound pictures, sound recording and reproducing, will bring a radical effect on entertainment, recreation, business, politics, education, government and international relations.

Corporation board meetings will be held by television, likewise international peace conferences and business deals, while letters will be spoken instead of written, he predicted.

DISTRICT FINALS TO BE HELD TONIGHT

Declamation Contestants To Meet at Martel and Agosta Schools.

Declamatory contests of county elementary schools will be held in the two districts tonight to decide which schools will participate in the county contests to be held at Central Junior High school April 24.

The county has been divided into two districts, east and west, the former district holding its contests at Martel and the latter at Agosta. The schools entered in each district are east, Tully township, Scott township, Caledonia, Claridon township, Waldo, Richland township and Pleasant township; west, LaRue, Prospect, Green Camp, Agosta, Montgomery, Marion township, Grand Prairie and Morral.

Each school will be represented in two groups, the first including grades one to four and the second from five to eight. The winners in each group from the two districts will meet in the county contests.

The winners will receive as first prize a gold medal, second prize a silver medal and third prize a bronze medal. In the county contest gold and silver medals will be awarded.

VETERAN INDUSTRIAL LEADER MAY RETIRE

U. S. Steel Stockholders Consider Plan Which Would Force Retirement.

By The Associated Press. NEW YORK, April 17.—Stockholders of the United States steel corporation will vote Monday on a revised pension plan which would retire their president, James A. Farrell, in February 1933. Executives of a number of subsidiaries also would be retired in a comparatively few years.

The plan prepared by Myron C. Taylor, chairman of the finance committee, calls for compulsory retirement at the age of 70. Officers may retire voluntarily, or at the request of their superiors, at 65.

Officers of subsidiaries also would be affected by the program. The pension plan provides that the pensioner shall receive one per cent of the average annual salary for the ten years before retirement, multiplied by the number of years of service.

Mr. Farrell, reputedly one of the highest paid executives in the country, has been the operating head of the United States Steel since 1911, when he succeeded W. E. Corey as president. He began his career in the steel industry at the age of 15 as a wire worker.

SOLUTION SOUGHT IN GANGSTER'S SLAYING

N. Y. Detectives Hunt Killer as Victim Is Buried in Bronze Casket.

By International News Service. NEW YORK, April 17.—While plans were made today to bury Giuseppe Masseria, slain New York racketeer, in a \$15,000 solid bronze casket, 40 detectives attempted to solve the mystery of his death.

Masseria, known as "Joe the Boss," was shot down by two well-dressed young men in a Coney Island cafe. His body was found with five bullets in his back.

Police refused to accept reports that henchmen of Al Capone killed Masseria. They said they did not know anything about "Joe, the boss" having represented Capone here and that he had recently quarreled with the gang chieftain.

Suspects in Robbery at Bellefontaine Caught

By International News Service. CLEVELAND, O., April 17.—Two men were held in custody of police here today as suspects in the robbery of a railroad yardmaster at Bellefontaine, O., and a jewelry robbery in St. Louis. They gave themselves up at a local fire station, police said.

Without money to buy ammunition, the men were molding tin foil into bullets when one real cartridge the pair possessed exploded, and sent the bullet into the foot of one of the men, police reported.

Both men admitted they were from St. Louis and one was carrying a suit of clothes which police believe was taken from the yard master at Bellefontaine.

Cleveland Jewel Holdup Charged to Racketeers

By United Press. CLEVELAND, O., April 17.—Louis L. Jacobs, 34, reputed racketeer and an associate of an East Side gang under suspicion in the murder of former Councilman William E. Potter, was named today as one of three gunmen who obtained \$5,000 in jewels from Mrs. Anna Jacobs in a daring holdup here Jan. 1, detectives said.

Arrested last night, was picked out by Mrs. Jacobs from a lineup of five men. Detective Orley May said. She said he looked like one of the men who robbed her, according to May.

TO RECEIVE BIDS FOR HAULING MAIL

Government To Let Contract for Delivery at Waldo.

Bids for the four-year contract to haul mail from the Marion post-office to Waldo will be received by postal authorities at Washington until May 5, according to word received by French Crow, postmaster of the local office. The contract will go into effect July 1, 1931, and will expire June 30, 1935.

All bids must be mailed to the second assistant postmaster at Washington, D. C., before the time of expiration if they are to be recognized. The contract calls for two trips a day from Marion to Waldo and return.

The mail leaves Marion at 7:30 a. m. and will arrive in Waldo at 8 a. m. The return will leave Waldo at 8:15 a. m. and will arrive at the local office at 8:45 a. m.

The first afternoon delivery will leave Marion at 4 p. m. and arrive at Waldo at 4:30 p. m. and will leave there at 4:35 p. m. and arrive here at 5:05 p. m.

The Wright Transfer & Storage Co. of Marion is hauling the mail at the present time. This company was awarded the contract from April 1 to June 30.

State Court Upholds Appellate Ruling

The Ohio supreme court yesterday overruled a motion to certify the record in the case of Lucia Viggiano against the General Exchange Insurance Corp.

Overruling the motion virtually sustains a ruling of the court of appeals, which reversed the local common pleas court. Judgment for the defendant was rendered in common pleas court.

The case comes back to the local court for a new trial. Mrs. Viggiano seeks \$1,300 on an automobile theft insurance policy.

TAKEN TO HOSPITAL

Morral Woman Injured in Collision Near Brush Ridge.

Special to The Star. MORRAL, April 17.—Mrs. L. B. Wilson sustained cuts and bruises and Tom Forest was slightly injured when the car Mrs. Wilson was driving collided with a truck bearing a Columbus license in front of the filling station operated by Mr. Forest at Brush Ridge about 7 p. m. yesterday.

Forest, who was standing at one of the pumps in front of the gas station, was struck by Mrs. Wilson's car following the collision. He was rendered unconscious for a short time but sustained no serious injury. The driver of the truck, whose name could not be learned, sustained minor bruises.

Mrs. Wilson was removed to the City hospital in Marion. She suffered a bruised shoulder and arm and a cut in her head. The Wilson car and truck were damaged.

Police Hold Driver After Auto Collision

M. L. Johnson of 249 Waterloo street is being held at City jail pending the investigation of a charge of driving while intoxicated.

Johnson was taken into custody by police last night. It is alleged that Johnson while driving south on Davis street struck a machine driven by Samuel Turner of 630 Mary street who was driving east on Bennett street. Neither machine was damaged to any great extent.

TRAFFIC COURT POSTPONED

Traffic court which was to have been held today at 9:30 a. m. was postponed until Tuesday at the same hour. Judge William R. Martin who was to have heard the charges was kept in his home by illness.

GALLON, April 17.—The forty-eighth wedding anniversary of Mr. and Mrs. Simon Balliett of two and one-half miles south of the city was celebrated Wednesday night when their children and grandchildren surprised the couple at their home.

A three-course dinner was served with covers arranged for 33 and the table, which was centered with a large cake, was attractively decorated in flowers and appointments of pink and white. Mr. and Mrs. Balliett were presented a gift by their guests.

The guests included Mr. and Mrs. Groves Balliett and family, Mrs. Daisy Walker and children, Mr. and Mrs. Lloyd Balliett and family, Mr. and Mrs. John Balliett and family, Mr. and Mrs. F. H. Craner and family, Mr. and Mrs. E. W. Sulser and family, Dewey Balliett, all of this vicinity, and Miss Nellie Adelsperger of Mansfield.

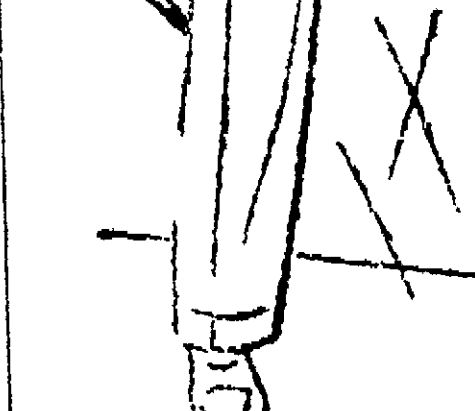

Coast Swimmers Win 2 Events at A. A. U. Meet

By The Associated Press
NEW YORK, April 17.—Two of the first three titles in the Women's National A. A. U. swimming championships have gone to the Pacific coast.

Helene Madison, great swimmer from Seattle, won the coast's first when she outsped a good field in the 100-yard free style in 1:08 2-10 last night. The second, the low-board diving event, went to Georgia Coleman, graceful ace of the Los Angeles Athletic club.

Eleanor Holm of the Women's Swimming Association of New York, accounted for the other championship event, the 300-yard medley event in 4:22 1-10.

MILLIONS PREFER KELLOGG'S ALL-BRAN

MILLIONS of satisfied users have made this famous Kellogg product the largest-selling all-bran cereal in the world. It guarantees relief from both temporary and recurring constipation.

How much better than pills and drugs. For most laxatives have to be taken in constantly increasing doses. Otherwise, they lose their power.

Kellogg's ALL-BRAN provides the natural, safe way to protect health. It supplies roughage to sweep poisonous wastes from the system. And it brings iron, which builds up the blood.

Just eat two tablespoonfuls daily. In severe cases, with each meal. Try ALL-BRAN with milk or cream, fruits or honey added. Use it in cooking. Recipes on the red-and-green package. Made by Kellogg in Battle Creek.

To take
that
gray look
out of
your wash

BY MARY LEE WORK

An Easier Way To Wash Cloth—
—And Do Various Other
Hard Jobs in Half the Time

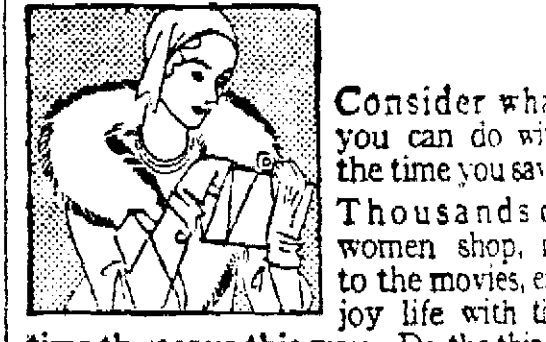

Here's a new method of washing clothes that takes the drudgery out of washing. Everywhere you go, women are using it because it makes living so much easier—so much more worth while. With it, you do any kind of washing—from the stoutest linens to delicately colored children's clothes; costly lingerie—in half the time it takes you to do it now—or less. And—you banish and avoid entire streaks, spots, that ugly gray look women complain of. And fade of any kind. In careful laboratory tests a man's blue shirt for instance, was washed 70 times without appreciable fade. This is probably twice the washing the average shirt gets before it is worn out.

How To Do It

You get a package of a preparation called Climalene at any grocery store for a dime. Put 2 tablespoons in a washtub of water. Use the same kind of soap you ordinarily do. But use only ¼ the amount you now use. That is all. Then see for yourself the amazing results.

Climalene acts by making water—whether it is hard or medium hard—soft as rain water. For that reason you use only ¼ the amount of soap you now use. And the end "soap-suds" and fade of fine things. Then, due to mildly cleansing properties of its own, it dissolves grime and dirt instantly, thus cutting washing time in half—either in the dishpan or washtub.

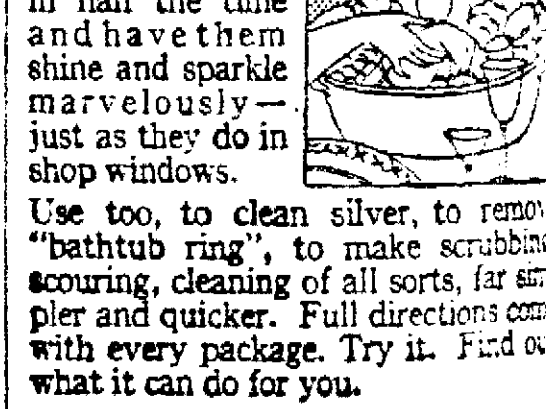

Shop With The Time Saved

Consider what you can do with the time you save. Thousands of women shop, go to the movies, enjoy life with the time they save this way. Do the things you now think only a woman with servants can do.

And have hands caressingly smooth and lovely. For Climalene acts as a beautifying agent to the hands.

Marvelous For Dishes, Too

You use Climalene too; to wash dishes in half the time and have them shine and sparkle marvelously—just as they do in shop windows. Use too, to clean silver, to remove "bathtub ring," to make scrubbing scouring, cleaning of all sorts, far simpler and quicker. Full directions come with every package. Try it. Find out what it can do for you.

ESCAPES QUAKE

Son of Marion Residents Leaves Managua Before Tremor.

Thirty-six hours before the earthquake leveled Managua, Nicaragua, last week, J. H. Roebuck, son of Dr. and Mrs. L. L. Roebuck left the country by plane for San Salvador, his parents received word in a letter today from their daughter-in-law.

Roebuck, who is manager of the Panama office of Ingersoll Rand Co. of New York, with all of Central America in his territory, was delayed on business longer in Managua, Nicaragua, than he had expected, and to make connections, flew to San Salvador, leaving behind his business files and personal belongings which were destroyed in the quake.

Mr. and Mrs. Roebuck have established their home in Panama, but Mr. Roebuck's business interests require frequent visits to all the Central American countries.

Loose DANDRUFF offends

How to get rid of it
quickly—pleasantly—inexpensively

LISTERINE, NOTED ANTISEPTIC, FOUND HIGHLY SUCCESSFUL

If your scalp itches or burns, if your hair is thinning or you are troubled with loose dandruff, begin using full strength Listerine, systematically, as an antiseptic shampoo. Simply douse it on and massage the scalp as vigorously as you can.

Literally tens of thousands have rid themselves of a dandruff condition with Listerine. They are simply amazed by the speed with which it gets results—often in cases where other, more complicated treatments had failed. One or two applications are frequently found sufficient.

What loose dandruff is

Loose dandruff is the visual evidence of a diseased or infectious condition of the scalp. It is most likely to manifest itself when the seasons change.

Evidence seems to point that the condition is of germ origin. At any rate, the fat glands about the hair become over-active, throwing off a disgusting, greasy, whitish substance known as sebum. This forms in crusts and scales that betray you as a careless and unhealthy person.

Neglect is dangerous

The hair, meanwhile, seems literally to be stifled. It grows lustrous, lifeless, falls out. The scalp feels hot and itchy. If

the condition is not treated promptly, eczema and baldness may follow, and usually do.

At the first symptom of trouble, the fight against loose dandruff should begin. Consider Listerine's effectiveness against this condition.

Why Listerine succeeds

If infection is present on the surface of the skin, Listerine attacks it. A powerful germicide, it kills bacteria in 15 seconds. The fastest killing time accurately recorded by science.

Listerine helps to dissolve oily crusts and quickly removes them, as well as horny scales.

And Listerine quickly relieves that burning, itching sensation. It soothes inflamed or irritated areas of the scalp.

If scalp is dry

If scalp is excessively dry, a little olive oil may be used in connection with the Listerine shampoo, or independent of it. The oil aids in dissolving crusts and scales and keeps hair from drying out. Get a bottle of Listerine tonight and try it if your scalp is troubling you.

Only Three Major League Teams Left in Unbeaten List

CARDS HAVE EASIEST TIME WINNING FIRST TRIO FROM REDLEGS

Boston Braves, New York Yankees Other Two Remaining in Select Group.

By HUGH S. FULLERTON JR., Associated Press Sports Writer. The big fellows of the big leagues are getting an early lesson this season in just how tough some of the other teams can be. Only three of the 16 major league teams have won their first three games and of these only the St. Louis Cardinals have had even a fairly easy time.

The other two are the Boston Braves, who have disturbed the peace of the experts considerably by upsetting the highly-rated Brooklyn Robins three, and the New York Yankees, who have taken three tough ones from the Boston Red Sox.

Braves Win Again
The Braves won yesterday, 7 to 4, as Ed Brandt allowed Brooklyn only five hits and Dazzy Vance contributed to his own downfall by throwing to the wrong base just before young Charley Wilson clouted a homer with two-on. The Yanks came out ahead 2 to 1, in a pitching duel between Herb Pennock and Hod Lisenbee that was not decided until the ninth inning.

The Cardinals had a fairly easy time winning their third game from Cincinnati 6 to 3. Jess Haines and Paul Derringer checked all the Cincinnati batters except Wally Roettger, who hit five times in a row. The surprising St. Louis Browns nearly won a third game when Harvey Walker, Detroit recruit outfielder, dropped a fly in the ninth inning and let in the tying run but after coming from behind again in the tenth, the Browns lost out in 12 innings, 6 to 5.

Pirates Win First
Like Detroit, Pittsburgh won its first victory of the year, downing the Chicago Cubs 4 to 3. The Cubs played rather loosely, having 12 men left on base.

Washington's Senators regained their edge over the champion Philadelphia Athletics, taking a close scrap by a 5-4 count. The A's barely missed tying the score as they tallied twice in the ninth inning and found some consolation for the defeat of Hank McDonald, their 18-year-old recruit.

Clint Brown of Cleveland turned in a neat pitching job as he shut out the White Sox with six hits to win 7 to 0. Although he allowed nine hits, Clarence Mitchell's split ball was more than good enough to enable the New York Giants to beat the Phillies 14 to 4.

PRACTICE GAME TONIGHT
The Forest Lawn Sunday school recreation ball club will play a practice game today with the Lee Street Presbyterians at Garfield park. Manager Jim O'Dowd of Forest Lawn asks all players to be at the park by 5:30 p. m. if possible.

PATH IS CLEARED FOR JUNE FIGHT BETWEEN SHARKEY - CARNERA

Present Indications Point To Staging of Battle at Ebbets Field.

By HERBERT W. BARKER, Associated Press Sports Writer. NEW YORK, April 17.—Primo Carnera, who used to do a bit of carpentering in Venice, was back in good standing in this state today and prepared to battle Jack Sharkey, Boston heavyweight, here, in June.

Madison Square garden officials may have more than a few words to say about whether Carnera shall be permitted to meet Sharkey under the promotional banner of James J. Johnston at Ebbets field June 10, but present indications are that the bout is as good as made and will receive approval from the New York state athletic commission.

The garden insists that it holds a contract calling for Primo to battle no one but the winner of the forthcoming Max Schmeling-Young Stribling heavyweight title fray at Cleveland, July 3, and notified the commission by letter that it was prepared to go to the courts to maintain its contract rights.

James A. Fraley, chairman of the commission, had a snappy comeback for this one, however: "This letter," he declared, "is written acknowledgement that Madison Square has been dealing with a suspended boxer. We have rules providing very severe punishment for that."

The commission intimated it would recognize no contract signed with Carnera while he was under suspension, thus clearing the way for a Sharkey-Carnera encounter. Definite announcement that such a bout has been arranged is expected from Johnston's headquarters within a few days.

SUTTER, VAN RYN TO MEET IN TOURNAMENT
Competition in North and South Court Play Enters Final Round.

By The Associated Press. PINEHURST, N. C., April 17.—John Van Ryn, of Philadelphia, was matched against Clifford Sutter, of New Orleans, in the men's singles finals of the North and South tennis tournament today, while Mrs. Van Ryn battled with Mrs. Marion Jessup of Wilmington, Del., for the women's singles title.

Van Ryn, seeded number three, advanced to the finals yesterday, by defeating Frank X. Shields, of New York, ranked number one, in a brilliant five set match, 3-6, 4-6, 6-1, 6-1, 6-3.

Sutter conquered Bryan Grant, of Atlanta, 6-1, 6-0, 6-1, in the semifinals. Playing a steady game, Mrs. Van Ryn disposed of Marjorie Sachs of Boston, 6-4, 6-4. Mrs. Jessup advanced with a 10-8, 7-5 victory over Virginia Rice, another Boston girl.

Mrs. Van Ryn and Mrs. Jessup were teamed together against Miss Rice and Anne Page, of Philadelphia, for the women's doubles finals.

SUSPENDED AFTER PROBE
COLUMBUS, O., April 17.—L. M. Gant, commander of Soloto Chapter, No. 3, Disabled American Veterans, has been permanently suspended from the organization by National Commander Harman H. Weiner, following an investigation into the recent charity boxing match here which resulted in a \$1,900 deficit. Jack Dempsey was referee at the match.

SHOVEL TO COMPETE IN 8-TEAM CENTRAL OHIO BASEBALL LOOP

Local Concern Will Play 20-Game Saturday Afternoon Schedule.

After an absence of several years from the field of Saturday afternoon baseball the Marion Steam Shovel Athletic association will again put a team in the field this season. The Shovel nine will compete in the Central Ohio league and will play a 20 game schedule. Ten will be played on the local diamond and 10 out of town. Other members of the league are Zanesfield, West Mansfield, Defontaine, West Liberty, Mt. Victory, Magnetic Springs and East Liberty.

The Steam Shovel association has not named its manager for the season yet but is expected to within the next few days. Ross Colgrove is being mentioned as a prominent candidate for the post. Frank Kemmerly, an official of the Steam Shovel A. A. announced today that the first practice of the season will be held at the Shovel diamond on Uncapher avenue Saturday at 2 p. m. Any interested players are asked to report at that time. It is not necessary to be an employee of the Shovel to play ball in the league.

Complete organization of the league has not been accomplished yet, Kemmerly said yesterday but full details will probably be available following a meeting of the circuit officials next Tuesday. The season is expected to open about May 15.

TOLEDO MAN IN FINALS OF GOLF TOURNAMENT

By The Associated Press. WHITE SULPHUR SPRINGS, April 17.—James B. Ryerson of Cooperstown, N. Y., and R. A. Stranahan of Toledo, will meet today in the final of the Mason and Dixon golf tournament.

Stranahan defeated C. A. Durand of the Hempstead Country club, and Ryerson downed Thomas F. McWalters of Newark, in yesterday's semi-finals.

Stranahan had little trouble in disposing of Durand, who failed to play the quality of golf shown in his earlier matches. The score was 8 and 7.

HACK IN SLUMP

By The Associated Press. CHICAGO, April 17.—Wanted: A quick remedy for a serious batting slump. Address: Hack Wilson, Cub center-fielder.

The pudgy Hack, who set the National league home run record of 56 circuit drives last season, is in the throes of a slump that has carried over from the training season. In three games against Pittsburgh Wilson has hit safely only once.

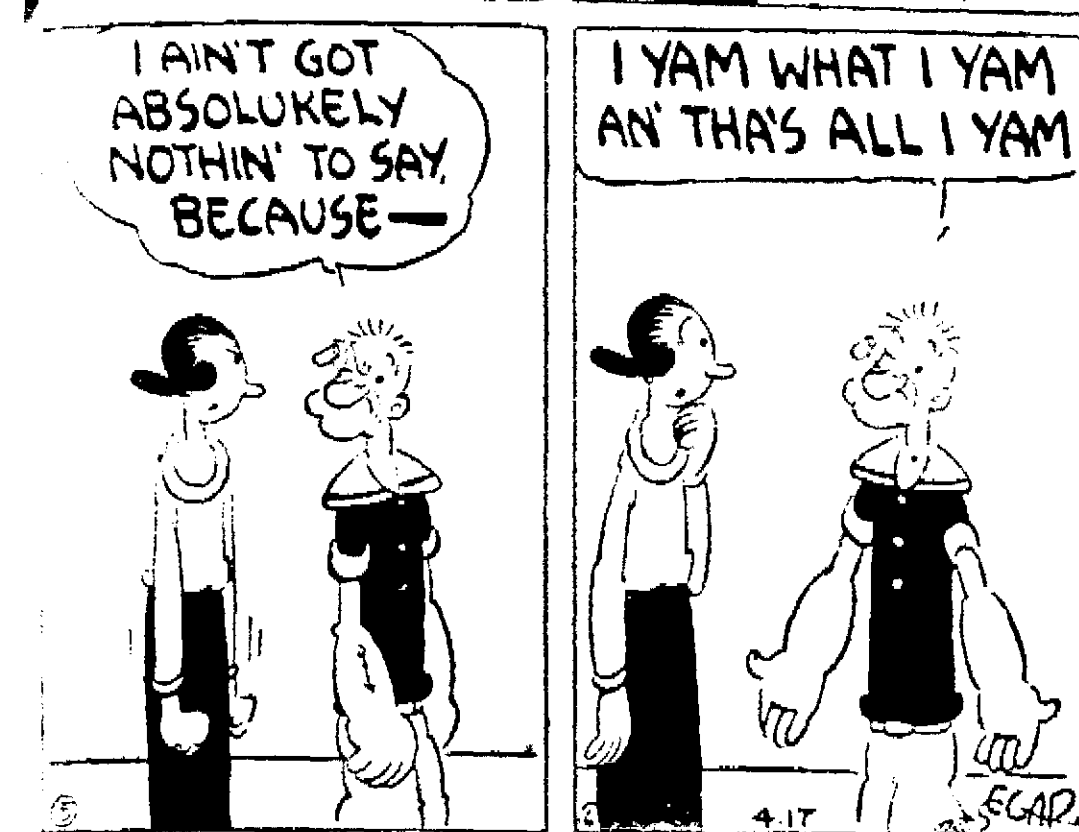

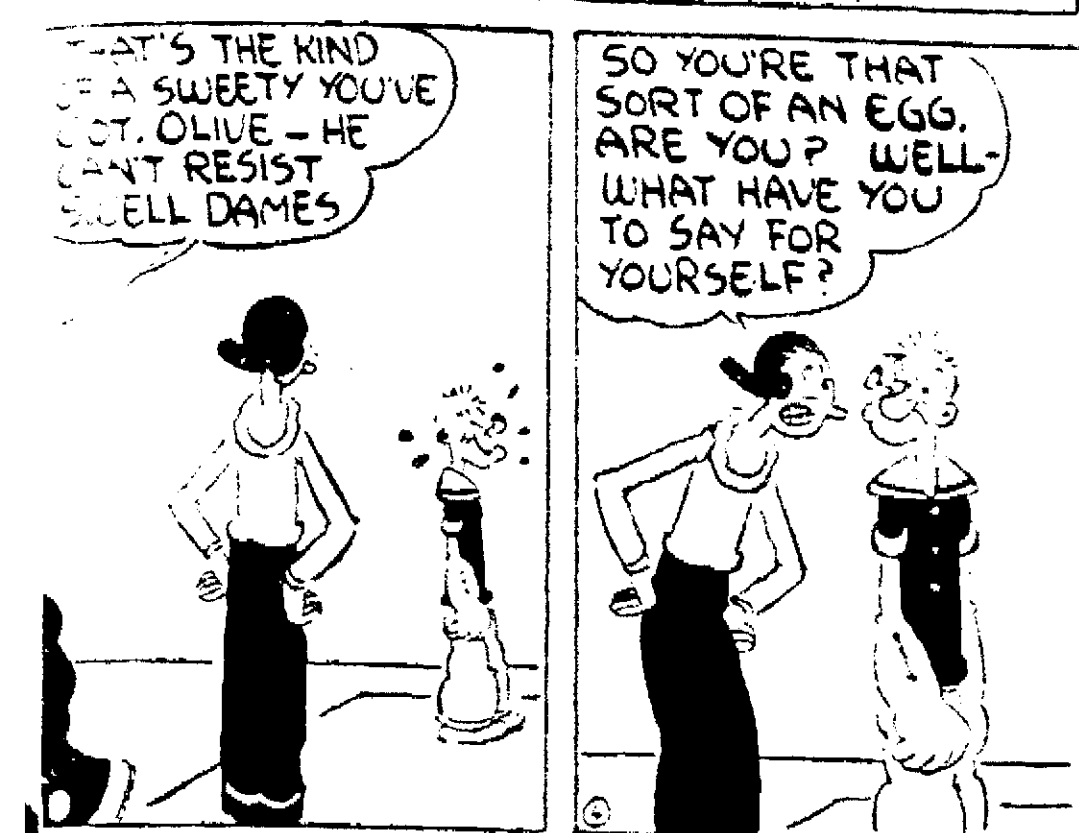

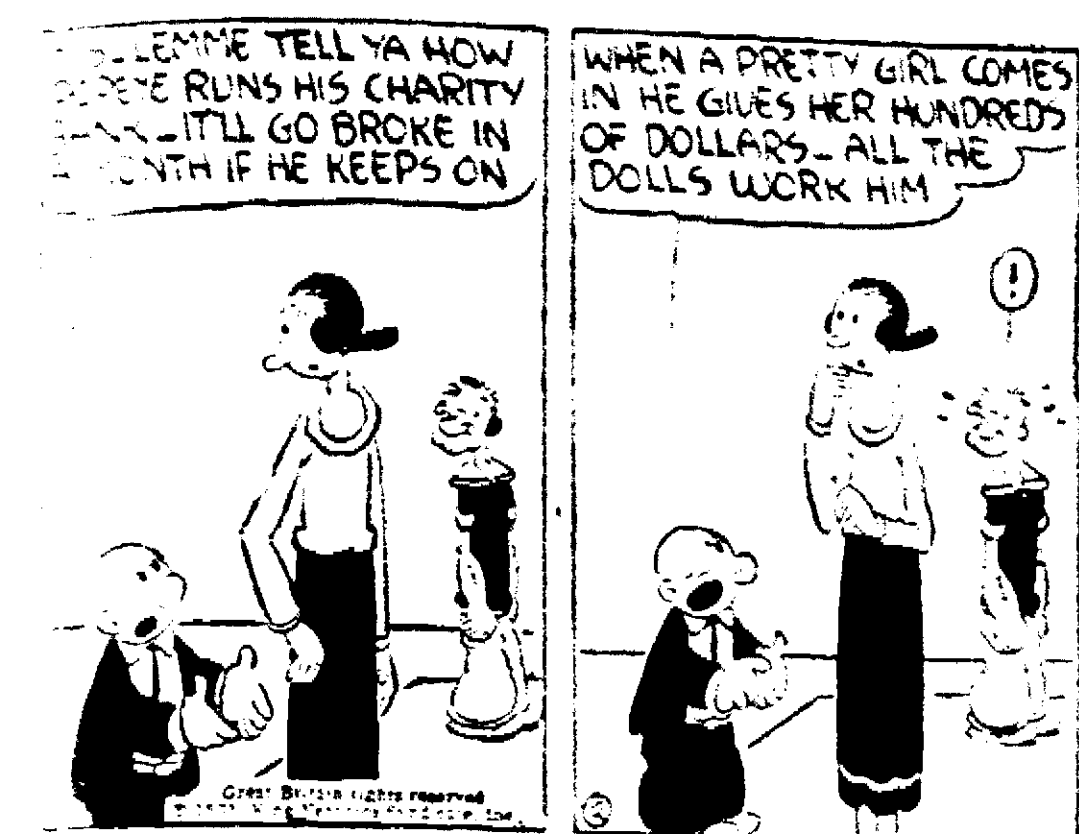

Yesterday his lack was particularly sad and the Pirates treated him cruelly. Rogers Hornsby who bats ahead of Wilson, was passed three times, twice to fill the bases. Hack fouled out once, and grounded out the next time. Later he forced the Royal, to gain a life at first for the only time of the game.

Dear Sir: I have been a sufferer from ulceration and irritation of stomach and bowels for 20 years. I have tried all remedies that I have heard about, with slight improvement. Sometime ago, my attention was called to Yellow Root & Clay which I have consistently used. I have taken five bottles and can say that I feel that I am cured of the dreadful malady that afflicted me. I live at 324 Olney av. Marion, and am employed as a toolmaker at the Marion Steam Shovel Co. I will gladly verify this testimonial upon request.

(Signed) H. B. Jones. This is one of many encouraging reports received from those to whom we have sold Yellow Root & Clay. If you are a sufferer from Ulcers, Irritation or colitis, try this remedy.

FARM YOUTHS TO GET PRIZES

\$1,000 Contest Open to Ohio Future Farmers of America.

By The Associated Press
COLUMBUS, O., April 17.—The opportunity to win a cash award of \$1,000 now is open to the 4,500 Ohio members of the Future Farmers of America.

Details of the competition for the award, to be made at the annual Future Farmers' congress in Kansas City next November, have been announced by Ralph Howard, Dependable

Cooper Batteries
Malo Bros.

of the Ohio state department of education, executive secretary of the Ohio Future Farmers' association. The award will go to the member of the organization who is adjudged the nationwide champion "American farmer." The winner will be selected by a board of judges to be composed of prominent men representing every section of the country. The prize money is being provided by the weekly Kansas City Star.

Competitors will be judged on the following points: Kind and scope of farming activities and degree of responsibility in carrying on these activities; ability to farm to be judged by efficiency in projects assigned in connection with school courses; leadership ability; and scholarship in school subjects. In addition, each contestant will be judged on the accuracy of his records and accounts submitted as evidence of his claims for consideration by the judges. All records and evidence submitted by candidates for the degree of "American farmer" and for the "star farmer" award of \$1,000, must be certified by the state supervisor of agricultural education, Howard explained.

Youthful Model Plane Builders To Enter Contest at Wright Field

By The Associated Press
DAYTON, O., April 17.—Wright field, army air field here, will be a Mecca in June for youthful model plane builders from every corner of the nation.

The occasion will be the two-day annual meeting June 29 and 30, of the Airplane Model League of America, an organization with some 400,000 members. Hawaii also is expected to be represented.

Some of the lads will be sent to Dayton by aeronautical organizations, business or professional clubs and civic groups, while others will come on "savings," or hitch-hike. All will bring model planes representing their own ingenuity and handiwork.

Prizes will be awarded the winners of the numerous competitions, and at least one winner will fly to Washington to be presented to the President and cabinet officers. Last year, Joseph Enhardt, the American contest winner, was sent to England with his winning model and carried off the international prize at Wakefield, England.

The league was organized in September, 1927, and has the support of the National Aeronautic association. Admiral Richard E. Byrd is honorary president of the league, and included among the vice presidents are Clarence Chamberlin, Eddie Rickenbacker and Eddie Stinson.

Wright field will prove a veritable fountain of knowledge for the enthusiastic model builders. They will see the material division of the army air corps; they will see the various types of up-to-date fighting aircraft in action, and they will hear talks by some of the country's most noted fliers.

CALEDONIA CLASS TO PRESENT PLAY

Seniors Choose Comedy
Drama for Annual Entertainment.

Special to The Star
CALEDONIA, April 17—A good attendance was present at the regular meeting of Deborah Rebekah lodge Wednesday night. Arrangements were made to celebrate the founding of Odd Fellowship in this country April 26. Miss Laura Garber, Miss Ethel Porter and Mrs. Forest Hipsher were appointed a committee to meet with a committee from the local I. O. O. F. lodge and arrange for a program. Mrs. S. P. Robertson, Mrs. G. T. Rightinger, Mrs. John Jeliff, Mrs. Alice Williams and Mrs. Clarence Ray were named on the social committee for the next meeting, when all members of the degree team are urged to be present for practice. At the close of the meeting lunch was served by Mr. and Mrs. Charles Pace, Mrs. Belle Rinker, Mrs. Dora Winch and Mrs. Lillian Steele.

The senior class of the high school will present "Pollyanna," a four-act comedy drama under the direction of Miss Marjorie Porter, at the town hall Thursday, April 20, and Friday, May 1. The cast includes: Eulish Mae Baird, Helen Louise Campbell, Mildred Hurr, Selorus Timson, Margaret Clary, Harold Burnside, James Nesbitt, Delmore Eden, Virgil Swisher and Helen Foote.

As an added feature the class will present a one-act play, "Our Aunt from California," with the following cast: Helen Louise Campbell, Mary Rose, Elizabeth Caldwell, Lila Mae Shaw, Marjorie Makeever and Mildred Simpson.

The men's chorus of Epworth M. E. church of Marion will give a program of sacred music at Memorial M. E. church Sunday night preceding the sermonette by the pastor on "The Biggest Word in the Bible."

Troop No. 8 of the Boy Scouts enjoyed its first outing for the season Wednesday night in Gray's field along the creek east of town. Following the building of their campfire a ball game was enjoyed after which lunch was served and tests were given in cooking and nature.

The Ladies' Aid society of the Clyde Reformed church held an all-day meeting Wednesday at the home of Mrs. D. R. Winters north of town. At the noon hour dinner was served by the hostess. Covers were laid for 10 members and the following guests: Mrs. Bertha Criesinger, Mrs. E. J. Stanley and Mrs. Ora Gist. A short devotional session was conducted by Mrs. E. J. Winters and the remainder of the day was spent quilting. The society will meet with Mrs. Winters in two weeks when a potluck dinner will be served.

TO SEE ZEP

Members of Falcon Torch Club To Visit Dirigible Plant.

Falcon Torch club of the Y. M. C. A. will be the guests of the Goodyear Zeppelin Corp. Saturday, April 25, according to Carl C. May, boys work secretary of the Y. M. C. A. May received a pass for 12 persons to inspect the Goodyear plant at Akron on that date and he will take 12 boys with him.

After inspecting the plant the boys will continue to Cleveland where they will spend Sunday. The group will return to Marion Sunday night. The trip will be made in automobiles.

WHEN SAN FRANCISCO BURNED

Stock Fire Insurance Met Its Supreme Test

TWENTY-FIVE YEARS AGO San Francisco was in flames. The fourth day of the fire revealed 28,188 ruined buildings, covering 520 city blocks.

Thousands were left homeless. Property destruction reached the enormous total of 350 million dollars.

This one fire swept away all underwriting profit earned by the Stock Fire Insurance companies since 1860 and 80 million dollars in addition.

STOCK FIRE INSURANCE

companies paid more than 200 million dollars into the stricken city, and San Francisco stands today as a magnificent example of the restorative power of sound insurance and the courage and resourcefulness of its citizens.

Through succeeding years the Stock Fire Insurance companies comprising the National Board of Fire Underwriters have increased their efforts to make cities safer—protect life and property in all communities—reduce the possibility of San Francisco's experience being repeated anywhere.

IN MOTHER'S SONG

DOROTHY STONE
Daughter of the noted Fred Stone and a star in her own right, Miss Stone will revive a song made popular by her own mother more than a decade ago when she appeared as guest artist, Friday evening, April 17, over a large WJAZ-NBC network. Nat Brunsloff's orchestra accompanies her and provides a program of the latest dance tunes.

Violinist Will Play Over NBC Chain Friday

MAJOR EDWARD BOWES will present Waldo Mayo, concert violinist, as guest artist on the program which Major Bowes' family party will broadcast from the Capitol theater in New York. Several other well-known artists will be heard on the program which comes over the NBC-WEAF network Friday at 7 p. m.

Dorothy Stone, comedienne and dancer, will sing many popular songs as guest artist on the program of Nat Brunsloff orchestra. The broadcast comes over the NBC-WJAZ air lines Friday at 8 p. m.

It's a fact—out of the some 130,000 letters received from radio listeners throughout the country seeking enrollment in NBC's "Keys to Happiness," piano playing programs, approximately 120,000 writers started their letters with the phrase, "please send me."

A snappy new and unusual program of dance music will make its debut on the air Saturday at 9:30 p. m. over the NBC-WJAZ hookup. Irving Gitlin will conduct the orchestra.

CAN HE HOLD DOWN THE LID?

Editorial Opinion.

Disease May Be in Foods.

MAKING IMPEACHMENT EASY.

Great things come out of Washington when congress is in session. Greater things emerge from the offices of senators tarrying in the capitol after adjournment. Senator Borah was long the only member of the senate sufficiently imaginative to remain in the news columns under a Washington date-line during recess. Now he has an excellent understudy in Senator Bingham, of Connecticut.

During March, Mr. Bingham set around watching figures on the treasury deficit and offering an occasional suggestion to the reporters about taxation increases. But in April he has reached the top of his recess form. He proposes an amendment to the constitution to permit impeachment proceedings against government officials to begin in either house of congress hereafter. Our miggardly constitution prescribes that the house alone may impeach and the senate alone may try. Mr. Bingham wants this changed so that the branch which didn't impeach may conduct the trial. Since the senate would like to impeach the political house members rise and fall with the popularity of the president, the Connecticut senator feels that it is too difficult to induce them to impeach officials appointed by him. The senate, with six-year terms, is not so circumvented. If it already had the power which Mr. Bingham suggests, it would recently have been able to impeach Chairman Smith of the federal power commission—after confirming him—instead of having to take the case to court.

Given the power, the senate would put real life into this impeachment business. Mr. Brookhart alone could be looked to for a score of impeachments annually. To the same turn of mind would go all the many persons with whom Mr. Norris is normally dissatisfied. Mr. Borah's bag wouldn't be insignificant. The senate usually does anything which these great leaders demand, and it would hardly refuse to demonstrate that the gas is not a dread manifestation of nature, but is the result of the operations of neighboring chemical factories, which makes possible oblation of the menace it carries to health and in many cases life itself.

There is this gratifying phase to the second "poison gas" invasion of the Tillure district of Belgium: It has enabled the scientists to demonstrate that the gas is not a dread manifestation of nature, but is the result of the operations of neighboring chemical factories, which makes possible oblation of the menace it carries to health and in many cases life itself.

AIRMAIL FROM CENTRAL AFRICA.

Much pride and satisfaction have been felt over the saving of hours in mail transportation in this country by plane. A good deal of fuss was made a short time ago when as much as a whole day was cut off the time of letter transit between the Atlantic and the Pacific coasts. After that achievement little if anything remains to be accomplished in North America in the way of mail savings, unless it be on the north-south lines, beyond the boundaries of the United States, which are but little used for postal service.

A performance has recently been accomplished in the way of airmail time saving that puts in the shade all American economies. A service was undertaken from Mwanza, on Lake Tanganyika, to London. The flights required nine days, and the mail was delivered with a saving of twenty-three days over the fastest previous transport by postal matter comprised more than 50,000 letters, many of which had been assembled at Mwanza from Central Africa and the Sudan.

Nine days from below the equator to Croydon! Think of the months that were formerly required to get any sort of message from the explorers who were working their way through that terrifying country! They were virtually isolated until they returned to the coast, and even there they were, in postal terms, distant many weeks from home. Now in a few successive hops from the heart of the dark continent letters are borne to London in nine days, instead of the month required only a few weeks ago.

Airmail is an established feature of the postal service, almost the world over. The day mail soon come when all first-class mail will be airborne, over short and long routes. The competition of the telephone compels the extension of the air service and the speeding of all mail planes.—Washington Star.

Dinner Stories.

"With whom was your wife quarreling last night?"

"Oh—er—she was scolding the dog."

"Poor beast! I heard her threaten to take the front door key away from him."

"How do you happen to get arrested so often for speeding?"

"I've got the hurry habit," answered Mr. Chuggins. "I bought the car on the installment plan, and I can't get rid of the momentum acquired by hustling to meet the payments."

A golfer determined to break himself of launching into strong language when things went badly with him. A friend suggested that in order to check the habit, he should pick up a stone and pocket it every time he let slip a bad word.

Returning to the clubhouse after the next game, he met his friend who remarked: "Well, Jack, I see you're reforming. Your pockets are not very heavy."

"No," said the golfer gloomily, "but wait till you see the wheelbarrow the caddy's got."

Twenty Years Ago.

It was Monday, April 17.

Mrs. Annie P. McNeil, widow of John F. McNeil and a social leader, died at her home on West Center Street.

Intervention in Mexico was up to congress. Mrs. Arnold Moser, daughter of Mrs. Caroline Moser, died that she had escaped death in the cyclone which razed the village of Hawthatha, Kansas.

The Marion Ohio-State team with Gould pitching defeated the Duluth team in a tenning contest, three to two.

Fay Edmondson returned to Pittsburgh after visiting his parents here.

The Prudential company purchased the Snyder Lumber company of Logan.

Local friends learned of the marriage of Michael J. O'Shea, formerly of Marion and Miss Anita Porter, of Syracuse, New York, that morning.

Consciousness and Survival.

BY ARCHIBALD HENDERSON.

The further man penetrates the secrets of nature, the deeper he digs the likelihood of attaining to absolute certainty about the fundamental laws seems less sure. In mathematics we can say even now with certainty, in dealing with aggregates each infinite in number, that either A is B or A is not B. We can not be sure even of this. Is space three-dimensional or many dimensional?

Is time like a river flowing smoothly on like a river, or is it a function of movement, changing with velocity? Is life itself an accident or part of some general scheme? Does the individual survive as such, after death?

These and many similar questions are unanswerable categorically by science at the present time. Recently J. W. Sullivan, the British writer on scientific subjects, has addressed leading questions of this sort to a number of outstanding figures today. The answers, although given by famous authorities and students of science, differ very widely.

For example, Sir James Jeans takes the idealistic point of view, and assumes that the universe is a vast dream of mind. Perhaps nature is not governed by determinate laws as we have long imagined. Heisenberg's principle of uncertainty, it would appear, is a natural phenomena in the indeterminacy of atomic phenomena. From cercease of the atom, we may predict, from cercease of the position of an electron at a given instance, but not both. This is a direct outcome of the principle of quantum mechanics. And now Einstein, in conjunction with Tolman and Podolsky, puts forward the notion that we can not give an exact description of the past path of a particle.

Accordingly, the new quantum mechanics is playing hob with our old assurance and our old certitudes. It imparts a principle of indeterminacy about the past as well as the future. We can not often quote, with assurance, the famous statement: "The past is what it is." The principle of the quantum mechanics involves an uncertainty in the prediction of future events.

It would appear then that we must reorganize all our notions about time. According to the old terminology, we said that events "happen." But the new point of view differs widely from this. Nowadays we may accept the point of view of Herman Weyl, who says: "Events do not happen; we come across them."

Perhaps, then, we are all parts of a general mind. Perhaps the universe, with every thing and being in it, is a great thought rather than an infinitely complex machine. As Jeans suggests, perhaps each individual is a brain cell in a universal mind.—Copyright, 1931, International Feature Service, Inc.

Free Liquor in Ashtabula.

BY J. H. GALBRAITH.

Even Ashtabula county, with its New England conscience and high ideals of morality catered somewhat to the general custom of indulging in intoxicants that prevailed in pioneer Ohio, and even the church—all the churches—winked at the traffic. The ministers' salaries were sometimes paid in whisky. A Methodist conference, says E. C. Lamson, editor of the Jefferson Gazette, in the early days voted that a minister might also be a dram seller.

Rev. Giles H. Cowles received for his first year's salary of the Congregational church at Jefferson four barrels of whisky. The old Episcopal church at Windsor stood by the side of a distillery and at the raising of the church, whisky was served the men from a gourd filled at the distillery. John Lannox, who was the founder of the Baptist church at Lenox was formerly engaged in the business of distilling brandy, but it is an indication of the growing sentiment against it that in his later life he expressed regret that he had ever engaged in that business.

At the dedication of a church at Austinsburg in reference to the wishes of the two daughters of the minister, who were earnest advocates of prohibition, no liquor was used, they serving hot coffee made by their own hands, but opponents of prohibition employed an old sailor to climb to the steeple pinnacle to break a bottle of rum, but the spirit moved the old man to change his mind and it is recorded that instead of breaking the bottle over the steeple, he flung it far out into the church yard.

Editor Lamson, local historian of these facts, says, however, that it is not true that in spite of this free use of liquor there was general sobriety. There was much drunkenness with its accompanying suffering and sorrow.

He thinks the arrest of Matthew Hubbard, first citizen of Ashtabula, for selling in lots of less than twenty gallons, the first arrest in the Western Reserve on a whisky-dealing charge. He admitted the fact, but denied that there was any law against it, and won his case.

New York Day by Day.

BY O. O. MINTYRE.

New York, April 17—Thoughts while standing: Nobody has needlessly swum across for some time. That purple haze over the Hudson? The molten silver of the Hudson? The pinky-plank of string orchestra? A half of cinders when a train rushes by? Riverside drive is not the same as those statues in front of Amelia Bingham. The two marble-fronted mansions of the cigar millionaires. Twilight snuggles in the stone wall skirting the Hudson. Trading ship sailors strolling with pick-ups. Smokey giggles.

The whirling of lights at Palisades park. Where Joseph Schenck got his start. The lonely roadside photographer. That medical center's thicket of spires and the old C. G. Killings estate. The locale of many Vinona stories—Inwood. Ten-month garages from every window. Movies featuring the turns that will reach the Palace later this week. Chalk-haired sheiks in the butter and egg stores. Groceries decorated with sprays of red-lettered prices. The debutantes going to the Roosevelt grill for tea dancing.

The Ansonia sliced up with rows of small shops. The Old Colonial theater dark. Graevauville's high spot uptown. Daddy Brown's huge real estate sign shifting into three colors. The spurt of life around Columbus circle. If it isn't John McGraw, it's his double.

Tahiti dark, glowering blotch of Fifty-third street running east and west from Broadway. And the Broadway theater, with the King, the only theater left in the White way. The jeweled gentlemen studying the racing form. Jeanette Hackett. Paul Specht, a Sinking Springs, Pennsylvania boy, who made good in the city.

The movie-of-yourself, photomaton and endless quarter-in-the-slot theater. Scarcely a building in the Broadway Forties that was twenty-five years ago. What will it be in twenty-five years hence? And I hope I will be here to tell you. Do you mind?

P. G. Wodehouse recently dedicated a book to his little daughter, Lenora. The dedication runs: "To my dear daughter, without whose constant help and encouragement this book would have been finished in half the time."

Cafes fashioned like Pullman cars have been taken on although a half dozen have been tried out. But a new one is announced for Madison avenue. It will seat seventy-five and be just too perfectly Pierre for anything. The sort of place where one goes deliberately and then beefs it is not the money, but the principle.

A guild of confidence men in New York are known as "Prominent People Racketeers." They specialize in tricking newly-rich whose vanities are easily touched.

Overheard atop a Fifth avenue bus: "She's taking a new-fangled treatment where they lock her up in a dark room with a lot of queer smells."

On west Fifty-third street last evening was a ladder over the sidewalk. It was interesting to watch almost everybody step into the gutter and walk around it. All except a rather hefty lady who approached it with a gleam, grabbed hold and laid it on the sidewalk. And walked angrily on. Amid much handclapping. Fun in the city, no end.

For many years I have in a sort of secretive way wanted to meet some lady who bore the name of Topsy. I visualized such a creature as frantically hoydenish—the fluffy sort who would drink champagne at 3 in the afternoon and fairly bristle with sophistication. Today an artist called. With him was a prim lady, I introduced as his secretary—Miss Topsy. I rather expected the room suddenly to fill with lebanian jewelry, confetti and perhaps burn blowing. Instead she proved a sad-eyed lady with a complexion suggesting a smear of vanilla blanc mange who gave the dogs a timpat, and then asked where she might wash her hands.

Inspired doubtless by Miss Topsy's gravity when Verne Porter dropped in later talk turned to the bleakness of existence. It came to us in our lamentations that 2:30 in the afternoon was life's barrenest moment. And suddenly discovering it was just 2:30 we became so touched that we parted blinking back scalding tears.—Copyright, 1931, McNaught Syndicate Inc.

A Washington Daybook.

BY HERBERT PLUMMER.

Washington, April 17—No one becomes more fervently in that age-old axiom that "we learn by experience" than do Uncle Sam's fighting men.

At the close of the Civil war, much effort was put forth by the army to assimilate and publish for future use the valuable lessons learned in that conflict.

Now the same thing is being done with the World war.

In one of those temporary structures hastily thrown up during the days of the war, some forty men daily engage in sorting more than 176,000,000 records of the World war for future reference.

They are the papers used for communication and administrative purposes in the A. E. F. and here at home. Perhaps a better idea as to how many there are may be gained by saying that they fill 7,882 filing cases. Each case contains four drawers, bulging with some 5,000 records.

Briefly, they are the communications that General Pershing and all other commanding officers wrote and received. They contain messages, memoranda, vouchers and things like that.

The work is slow and tedious. Less than 30 of these filing cases have been indexed to date. The army war college, under whose supervision the work is being done, estimates vaguely that it will take six or eight years to whip the valuable records into shape.

And it is only these that the army is interested in. Out of the 176,000,000 documents, probably not more than 500,000 finally will be judged worth preserving.

Probably after these records have been put in order an attempt will be made to publish a history of the World war. That, however, remains to be seen. There are those who believe it not the job of the army to write such a history. Two monographs were prepared for publication, but never printed.

A publication called the "Order of Battle" has been prepared and will be published in the near future. But this gives merely a brief record of every large unit in the war.

It contains some 700 pages, and army officers say that it will be a valuable reference. The officers in charge of indexing this information says that the knowledge contained in these records will be of distinct military value, regardless of whether or not it is used to write a history of the war.

Colonel S. C. Vestal, in charge of the historical section of the war college, says: "It will never be out of date—not in the next century."

And although an official history of the World war never may be written, if at some future time such a volume were to be authorized, the officers will find that these papers have been indexed in such a manner to make them readily accessible.

Count Henry de Porceri is liable to grow cheery. Her marriage to him has brought Mabel Boll far more newspaper attention than her diamonds ever did.

The Pennsylvania has adopted a heavier steel rail to meet the demands of speeds up to 100 miles an hour. And thus the wild race against time goes on!

Alfred E. Smith probably was dealing in generalities when he said that the wets have the liquor and the dries have the law. There are envious people who stoutly affirm that many of the dries have both.

In suing Ty Cobb for divorce, his wife paints him as arrogant, cruel and inhuman. Without the slightest knowledge of the facts in the case, it may be said that, as a rule, all great athletes are "temperamental."

What are said to be the richest radium deposits in the world have been discovered in the Great Bear Lake district of Canada, but the transportation problem to the 10,000-square-mile area of deposits is such that relieving the thirst of dry Americans will probably outrank the radium industry for some time to come as a paying proposition.

On its last westward trip, the White Star liner, Majestic, one of the biggest two vessels afloat, brought over only 227 passengers. What's the urge for building more and bigger liners with ocean travel such as this?

Senator Couzens, of Michigan, warns industry and business that, unless they devise ways and means to end idleness, congress will vote unemployment insurance. What the senator probably means is that industry and business must evolve a plan to end unemployment, which he should realize is a horse of an entirely different color from ending idleness.

The plan of several British lines to run one-week sea excursions out of New York City to nowhere has reopened a ship line rate war. Who knows? The opportunity of the thrifty to get one week's succor from dryness may soon be within the reach of all.

The idea of taxing motor cars according to their weight is now being considered by Buckeye legislators in joint committee, the theory being that \$5,500,000 revenue more than at present could thus be raised. What an innovation it would prove were legislative bodies to consider ways and means of decreasing the need of revenue rather than to stay awake on nights trying to discover means of raising it!

The Westinghouse research laboratories have developed an "electric finger" the "feel" of which is so delicate that it instantly indicates whether a doubtful document, stock certificate or check is printed on paper of the same thickness as the genuine or pick out faked historical documents, costly tapestries and silks by comparing their thickness with the original. If science keeps on, it will come mighty near forcing the world to be honest.

Close to the Breaking Point.

The law-makers have unbounded faith, apparently, in the capacity of the automobile to bear all the burdens they can devise to place upon it. License fees, fuel fees, registration fees, examination fees, property taxes and traffic fines are various forms of visible levy. Indirectly, motorists pay by drivers' license fees and road assessments. Heaping straw upon the camel's back was a humanitarian act in comparison with the taxation load piled upon motorists.

In Ohio the most recent addition to the motorist's expenses promises to be a scheme to collect license fees on a basis of weight rather than horsepower. The principle is sound enough, weight obviously being the factor that has the most direct bearing on roads, yet it is not principle that the legislators are considering. It is a way to make more money for the state; the weight basis would double the cost of license tags. The outstanding good feature of the idea is that trucks would be the heavy sufferers. They should be because they are the heavy users of the roads.

Private motorists in this state already can estimate the direct taxation on their automobiles at a rate close to a quarter of a cent a mile, but perhaps the load hasn't reached back-breaking proportions yet. As long as road-building programs continue to give motorists improved facilities, or better, as long as motorists are convinced that the money they pay in taxation, fees and fines is being turned to good account, legislators can increase the burden. They will act wisely, however, to leave a safe margin on the approach side of the breaking point.

Awful Waste of Useless Yards.

Like Presidents Roosevelt, Harding and Coolidge before him, President Hoover has run up against the same old obstacle in attempting to practice economy and curtail expenditures at the little used "industrial" yard at Charleston, South Carolina.

The Charleston navy yard, like a number of yards on the Atlantic seaboard, at its intent and purposes is useless save for political fence-building purposes. In 1929, despite budget and naval opposition, this yard secured an appropriation of \$200,000 for the repairing of the docks there for which there is little, if any, use, for the reason that no ships have been built there since 1923 and it is against the present naval policy to use it for new ships. Despite this and against budget and navy opposition once more, southern senators led by Senator E. Durant Smith, of South Carolina, secured a promise of \$150,000 to build a destroyer way at the Charleston yard on the chance that it might be given the work of constructing one of the proposed new destroyers.

The Charleston yard, like a number of others, has been a steady drain on the federal treasury. In 1923, the board headed by Admiral Rodman reported that an annual saving of \$2,094,734 could be worked by placing the yards at Boston, New York, Portsmouth and Charleston on an inoperative basis and doing all naval building and repairing on the eastern coast at Norfolk and Philadelphia and all training on the east coast at Hampton Roads.

The thing was put over at the last session in this manner. The supporters of the Charleston appropriation, after meeting defeat twice in an attempt to have funds included in the regular naval appropriation and the first deficiency bill, put up a last ditch fight to include the \$150,000 item in the second deficiency bill during the closing days of congress. Taking advantage of the fact that President Hoover was anxious to avoid an extra session the backers of the Charleston appropriation threatened to filibuster against the deficiency bill if the item were not retained. Chairman Burton L. French, of the naval subcommittee of the house appropriations committee, termed the appropriation wasteful and refused to approve it.

The situation was called to the attention of the White House. Finally, to break the deadlock, a gentlemen's agreement was reached in the senate just before adjournment under which the item was deleted from the second deficiency bill, thus removing the French opposition, and Smith was assured that funds for building the way would be taken from regular navy maintenance funds.

It has been stated on the floors of the senate and house that our naval vessels of average size could not reach some of these useless yards save by the employment of pontoons and that it would be necessary to equip our big warships with stilts to get within sight of them.

It is said that the appropriations expended in 1930 on the Boston, Portsmouth, New York and Charleston yards, by no means the poorest of the lot, and the naval training station at Newport, was \$25,000,000, that the overhead on the operation of the four yards was \$5,382,967, and the value of their products in ship and repair work was but \$9,241,000.

How much longer must the public treasury be despoiled to provide jobs for henchmen of federal legislators?

There is this gratifying phase to the second "poison gas" invasion of the Tillure district of Belgium: It has enabled the scientists to demonstrate that the gas is not a dread manifestation of nature, but is the result of the operations of neighboring chemical factories, which makes possible oblation of the menace it carries to health and in many cases life itself.

The Erie's business in March was such as to wipe out a deficit of \$100,000 resulting from its operation the first two months of the year. Can it be that the Erie is going to demonstrate that, even after many years of discouragement, a railroad can come back?

Having passed the highest tax rate in twenty-five years, the council of Regina, Canada, voted to stage a series of Scottish bagpipe band concerts in the city's parks, holding that the people needed more music in times of depression. It is to be admitted that if anything is calculated to make people forget their troubles, a bagpipe concert will probably come closest to filling the bill.

A survey of the strawberry crop in the Missouri and Arkansas Ozarks shows that the farmers of that area will market their crop for \$6,750,000 although they reduced their 30,000 acreage of last year to 22,500 this. Of course, it is understood that the consumer "pays the freight" of crop control.

The executive council of the American Bankers' association reports that there has been an increase of sixty-one per cent in the number of bank robberies during the last six months. Bank robbery seems to have become the great American indoor sport.

The department of commerce in Washington reports that there were more than 300 violations of the federal air commerce regulations handled by the department during the first quarter of the present year. Considering the difference in the number of machines in use, it looks as though there is enough better regulation of air traffic than of highway.

It is Henry Ford's view that "the average man won't really do a day's work unless he is caught and can not get out of it." It is evident that Henry has never enjoyed association with any of us hard-working spreaders of joy and sunshine in paragraphs who labor for the pleasure we get out of it rather than for financial return.

The owners of the Vestris are being sued for full liability for the 112 lives lost when that vessel sank off the Virginia capes, it having been developed that the captain was following his book of instructions when he delayed an SOS call. It's not impossible that the owners' reluctance to spend money to insure safety may cost them many times what the salvaging costs would have been had a call been sent out when the unseaworthy condition of the Vestris was discovered.

P. ANSELMANN, 65, CLAIMED BY DEATH

Pleasant Township
Farmer Dies at County
Home.

Peter Anselmann, 65, of Pleasant township, died at county home at 10 a. m. Death was caused by pneumonia. He had resided at county home since May 31, 1929.

He was a farmer of township, where he was born, 1865, to John and Margaret Anselmann. He was not baptized and confirmed in the Lutheran Church of Pleasant township.

Man Held in Jail
on \$200 Bond Here

John Hunt, 21, of Cass avenue, pleaded not guilty and was held under a \$200 bond in municipal court yesterday, to a charge of abandoning his wife, Mrs. Mary Hunt, when she was about to become a mother, will be given a hearing Tuesday at 9:30 a. m. Hunt failed to post bond and is now held in city jail until time for the hearing.

Through an error it was reported in yesterday's issue of the Star that Hunt was found not guilty and had been released.

Marion Doctor Speaks
at Medical Meeting

Dr. C. G. Smith of the Elbe apartments addressed a meeting of the Northwestern Ohio Eclectic Medical association yesterday at Findlay, speaking on "A General Discussion of the Acute Surgical Abdomen." Accompanying him to Findlay were Dr. F. L. Thomas, Dr. S. W. Mattox, Dr. J. G. McNamara and Dr. N. Siffritt. Dr. R. Taylor of Columbus, president of the state association, gave an address, "Chronic Nephritis."

RENOVATE HOTEL

Ackerman To Open Under New Management.

A complete renovation of Hotel Ackerman, 1014-15 North State street, which closed last Monday, is under way. The building is being repaired inside and out and will be furnished with new equipment.

The work will require about 30 days, after which the hotel will be opened under new management. The building is owned by George Ackerman. Until Monday it has been managed by William C. Wood.

Dr. William Harwood Tells of
Experiences in Jungle at
Ladies' Night Party.

An address by Dr. William Harwood of Cincinnati was the outstanding feature of a Kiwanis club ladies' night party at the Marion club last night. His talk centered around his experiences in the jungle while he has captured more than 100 lions for circuses.

The program was in charge of Mrs. Jay Vaughan, chairman of the program committee. A number of stunts were staged by the wives. Music on the program was furnished by Jane Wirtz, pianist, and Dorothy Zieg, pianist, and Pauline Schroeder, whistler, all of Marion. Mrs. C. E. Turley led group singing.

The make-believe organization of a "gossip club," as an auxiliary of the Kiwanis club, and an exhibit of old pictures of club members were among the stunts.

The tables were arranged to form a huge "K."

Dr. Harwood brought with him his pet lion cub and bear, and exhibited a kaffir dog, a cross between a hyena and a dog.

H. P. Madden of Chicago, connected with the proposed Chicago-Pittsburgh Air Express Co., will be the speaker at the next Thursday luncheon of the club at the Marion club. He will discuss Marion's possibilities of becoming a stopping place for planes on the proposed route.

Indian Cheerful as He
Goes to Death Chair

McALESTER, Okla., April 17.—E. S. "Choc" Hembree, Choctaw Indian, smiled as he walked steadily to the electric chair today and was executed for criminally assaulting a young school teacher.

The nerve which led him to joke with 13 cellmates in the death house at the state penitentiary never deserted him. He had a smile for each man as he said goodbye.

Still smiling, he complained apologetically while seated in the chair that a strap was hurting his arm. He was pronounced dead a few minutes later.

HOSTESS TO CLASS
Mary Ann Curtis was hostess to the Pollyanna class of Epworth M. E. church Wednesday night at her home on Marion avenue. Lillian Thomas was the assisting hostess. Business was transacted and plans were made for a box social May 5. Hazel Eibling gave several piano selections.

Marion Company, No. 15, U.
R. K. P., Plans Ceremony
for Next Thursday.

Rehearsal in preparation for the installation of officers and inspection of Marion Company No. 15, Uniform Rank Knights of Pythias, featured a regular meeting of the company last night.

Installation and inspection will take place next Thursday night with Capt. Frank Wallace of Wiland as inspecting officer.

Among guests expected to be present are Col. H. S. Schummeier of Sandusky, accompanied by his wife and Col. W. C. Appleton of Mt. Vernon and his staff.

At that time, the Marion company will center the Sir Knight rank on a class of candidates. A torch and social hour will conclude the meeting.

PROPRIETOR HELD
Lodgroom Operator Arrested on
Card Game Charge.

Under a city ordinance passed June 9, 1924 prohibiting the playing of cards in a soft drink parlor or poolroom, either conducted by proprietor or an informal game, O. V. Messenger, of 788 North Main street, was taken into custody last night by police.

It is alleged that Messenger has been conducting card games in a poolroom on the West Side for some time contrary to the city ordinance. Messenger was released on his own recognizance and will appear in municipal court later.

TO RAISE MONEY
Salvation Army Asks Donations of
Papers To Aid Fund

A plea for rags, books and magazines has been sent out by the Salvation Army to help in raising a \$200 foreign missionary fund which the local post must meet this year.

Heretofore the money has been raised by the Salvation Army circle, but this year, it has become necessary to ask the aid of the friends of the Army to assist.

Ensign Walter T. Shackelford of the local post will call for the donations if he is notified at the Army headquarters at 119 North State street, or by calling 7168. The contributions will be received at headquarters at any time.

CIRCLE NO. 4 MEETS
A playlet, "The Christian Trail" was given at a meeting of Circle No. 4, Ladies' Aid society of Epworth M. E. church, yesterday afternoon with Dr. and Mrs. C. E. Turley at the parsonage on East Center street. There was a large attendance of members. Dr. Turley led the devotions. Mrs. L. F. Schiller gave a vocal solo during a social time. Mrs. F. L. Hunter was chairman of the refreshments committee. A meeting will be held May 21 with Mrs. R. W. Kauble of Clover avenue.

AUXILIARY MEETS
A business and social meeting of the Ladies' Auxiliary to Local No. 1059, International Association of Machinists, was held yesterday afternoon in Central Labor Union hall. A business meeting was followed by refreshments. A meeting will be held May 7.

COUNTY WAGES CUT
By International News Service.
WARREN, O., April 17.—A 10 per cent wage cut went into effect today in every Trumbull county department except those of Sheriff J. C. Risher and Engineer Ralph Taylor. The cut was made in order to meet a shortage in the budgets for operating county offices, it was said.

ENGLISH LABOR RULE
PROGRAM TO PROCEED
MacDonald Ministry Over-rides Attempted Vote of
Censure by Liberals.

By International News Service.
LONDON, April 17.—Entrenched more firmly than ever after the house of commons rode down a conservative motion of censure by a surprising large majority of 54, the Labor government of Premier J. Ramsay MacDonald prepared today to push through its long-delayed program.

The hearty support of Davis Lloyd George's liberals, who recently gave cause for uneasiness by occasionally wavering in their determination to keep Labor in office, saved the country from a general election that would have followed the government's fall.

The motion of censure repudiating Premier MacDonald for failure to solve unemployment, introduced by Stanley Baldwin, was defeated by 305 to 251.

The size of the majority indicated not only a renewed Labor-liberal era of good feeling, but signified that the MacDonald party now has a greater parliamentary following than it has had for some time. The administration is ready to push through the budget, which will be presented April 27.

In all probability MacDonald's administration will not be jeopardized again until late this summer when the commission of unemployment insurance presents its final report.

MARION MAN SPEAKS AT MT. GILEAD MEET

District Manager of Gas Company Is Guest of the
Kiwanis Club.

Special to The Star.
MT. GILEAD, April 17.—New methods in the manufacture of artificial gas and in the marketing of natural gas was the subject discussed by C. F. Bronson, manager of the district office of the Ohio Fuel Gas Co. at Marion, in an address before the Kiwanis club at the Globe hotel Thursday.

Mr. Bronson describes in detail the changes in the industry brought about in the last two years through the development of new fields of natural gas in Texas, Louisiana, California and the Montana-Wyoming districts.

The immense production in these districts sometimes in connection with oil wells made it necessary to devise new distribution methods, he stated. Surveys are constantly being made of the various cities served by the company. Mr. Bronson said, and Mt. Gilead status up as one of the better cities of the group.

With unexcelled schools, fraternal organizations, modern newspapers, good business institutions, sound banks, wide-awake manufacturers, good streets, modern hotels, parks, excellent transportation facilities, reasonably cheap rents, cheap power, favorable labor market and a good farming community Mt. Gilead holds a progressive heritage attained by civic pride and it can only be retained by civic pride, he stated.

Announcement was made Thursday that the Mansfield club would be here Thursday, April 23. The meeting of the two clubs will be held at the Globe hotel at 8:30 p. m. On the following Monday, April 30, the local club will go to Crestline for a joint meeting with the club there. This meeting will also be held in the evening.

The speaker Thursday was introduced by Jesse M. Bishop, local manager for the gas company.

Galion Patriotic Group
Celebrates Anniversary

Special to The Star.
GALION, April 17.—An outstanding event in the history of the Women's Relief Corps took place Thursday afternoon when the forty-third anniversary was celebrated with a 1 o'clock luncheon. Colors of red, green and yellow were used and the guests included the members, Department President, Mrs. M. Del Monte of Sherwood, together with representatives of the Daughters of Union Veterans, American Legion auxiliary, Sons of Veterans auxiliary, Spanish War Veterans auxiliary and Commanders John English, Joseph King, J. J. Boyer, Philip Metzger and Al Stevens.

As the program opened three lovely baskets of flowers were presented by the Corps, by the D. of U. V. S. of V. auxiliary and the local Legion auxiliary.

A social hour followed during which Mrs. Beatrice Coover, president of the corps, was presented a handkerchief shower and a contest was held with Mrs. Coover winning the prize.

The program was in charge of Mrs. William Kincaid and Mrs. T. M. Gleason and was announced by Mrs. Kincaid.

WORK PROGRESSES IN LOAN PROGRAM

Union County Office Aids
Farmers in Drouth
Area.

Special to The Star.
MARYSVILLE, April 17.—Through the cooperation and financial aid of the Red Cross of Union county the farmers seed loan program recently established has been of material aid to many farmers who have lost from last summer's drouth.

A central office has been set up in the Union county health department with A. G. Kirby of Marysville in charge as secretary. Through the assistance thus given, and due to the wide publicity sponsored by the Red Cross, Union county has completed loans of more than six times the amount of adjoining counties where central office aid was out provided.

The final list for applications to be filed in Marysville is April 28 and in order to assist the farmers in the northern part of the county all details of the loan are being completed in a short space of time with one trip only to the central office in Marysville.

English Author Leaves
Estate Worth \$500,000

By International News Service.
LONDON, April 17.—The will of the late Arnold Bennett, popular English writer, today disposed of what is regarded here as the big asset literary fortune in history. Written on a sheet of note paper, it made bequests exceeding \$500,000. No British author, so far as could be learned, left such a sum. Charles Dickens left \$400,000 and Anthony Trollope \$350,000. Bennett died on March 27.

HOME CIRCLE MEETS
Marion Circle, No. 184 Protective Home Circle, held a meeting Wednesday at the Junior Order hall and initiated two candidates. The next meeting will be Wednesday and all members are urged to attend.

ASKS DIVORCE
MARYSVILLE, April 17.—Mary D. Perry has filed a petition for divorce from P. H. Perry. They were married March 16, 1929, and are the parents of two children. She charges that he has been willfully absent for more than three years.

FALLS FROM TANK
UPPER SANDUSKY, April 17.—Adam Burkhardt broke his left leg at the ankle, this morning when he fell off an oil tank at the Upper Sandusky Beverage and Ice plant where he is employed.

Smoke Screen Aids Car
Escape Mansfield Police

By The Associated Press.
MANSFIELD, O., April 17.—Mansfield police were treated to something new in the way of escape early today.

Lieutenant M. K. Bates attempted to halt a speeder. As he drew alongside the car on his motorcycle the car emitted a dense smoke screen which blinded the officer. Four shots were fired from the car at Bates, but none took effect.

Walker Frames Reply to Incompetency Charges

By The Associated Press.
NEW YORK, April 17.—Mayor Walker, against whom charges of incompetency have been filed with Governor Roosevelt, has decided on the keynote of his reply. It will assert that the mayor is an administrative officer, "not a detective."

"It is not the mayor's business," he said, "to open desks and drawers and go snooping around corners to check up hourly on actions of 130,000 city employees."

The answer, running into thousands of pages of statistics and history, will be delivered to the governor shortly.

Four Poles Killed as
War Time Bomb Explode

By The Associated Press.
LAVOV, Poland, April 17.—Poles have playing in a field near the village of Szablin dug up a shipwreck shell left over from war time and in playing with it caused it to explode. Four persons were killed and fifty badly wounded.
